DO YOUR BIT FOR AMERICA

A Proclamation by President Wilson to the American People

THOUSAND NEEDS FOR VICTORY

Industrial Forces of Our Country, Men and Women, Will Be a Great Service Army

My Fellow-Countrymen:

The entrance of our own beloved country into the grim and terrible war for democracy and human rights which has shaken the world creates so many problems of national life and action which call for immediate consideration and settlement that I hope you will permit me to address to you a few words of earnest counsel and appeal with regard to them.

We are rapidly putting our navy upon an effective war footing and are about to create and equip a great army, but these are the simplest parts of the great task to which we have addressed ourselves.

There is not a single selfish element, so far as I can see, in the cause we are fighting for. We are fighting for what we believe and wish to be the rights of mankind and for the future peace and security of the world.

To do this thing worthily and successfully we must devote ourselves to the service without regard to profit or material advantage and with an energy and intelligence that will rise to the level of the enterprise itself. We must realize to the full how great the task is and how many things, how many kinds and elements of capacity and service and self-sacrifice it involves.

These, then, are the things we must do, and do well, besides fighting—the things without which mere fighting would be fruitless:

We must supply abundant food for ourselves and for our armies and our seamen, not only, but also for a large part of the nations with whom we have now made common cause, in whose support and by whose sides we shall be fighting.

We must supply ships by the hundreds out of our shipyards to carry to the other side of the sea, submarines or no submarines, what will every day be needed there, and abundant materials out of our fields and our mines and our factories with which not only to clothe and equip our own forces on land and sea, but also to clothe and support our people, for whom the gallant fellows under arms can no longer work; to help clothe and equip the armies with which we are cooperating in Europe, and to keep the looms and manufactories there in raw material; coal to keep the fires going in ships at sea and in the furnaces of hundreds of factories across the sea; steel out of which to make arms and ammunition, both here and there; rails for worn-out railways back of the fighting fronts; locomotives and rolling stock to take the place of those every day going to pieces; mules, horses, cattle, for labor and for military service; everything with which the people of England and France and Italy and Russia have usually supplied themselves, but cannot now afford the men, the materials, or the machinery to make.

It is evident to every thinking man that our industries—on the farms, in the shipyards, in the mines, in the factories—must be made more prolific and more efficient than ever, and that they must be more economically managed and better adapted to the particular requirements of our task than they have been; and what I want to say is that the men and the women who devote their thought and their energy to these things will be serving the country and conducting the fight for peace and freedom just as truly and just as effectively as the men on the battlefield or in the trenches.

The industrial forces of the country, men and women alike, will be a great national, a great international, service army—a notable and honored host engaged in the service of the nation and the world, the efficient friends and saviors of free men everywhere.

Thousands—nay, hundreds of thousands—of men otherwise liable to military service will of right and of necessity be excused from that service and assigned to the fundamental, sustaining work of the fields and factories and mines, and they will be as much part of the great patriotic forces of the nation as the men under fire.

I take the liberty, therefore, of addressing this word to the farmers of the country and to all who work on the farms: The supreme need of our own nation and of the nations with which we are cooperating is an abundance of supplies, and especially of foodstuffs.

The importance of an adequate food supply, especially for the present year, is superlative. Without abundant food, alike for the armies and the peoples now at war, the whole great enterprise upon which we have embarked will break down and fail.

The world's food reserves are low. Not only during the present emergency, but for some time after peace shall have come, both our own people and a large proportion of the people of Europe must rely upon the harvests in America.

Upon the farmers of this country, therefore, in large measure rests the fate of the war and the fate of the nations. May the nation not count upon them to omit no step that will increase the production of their land or that will bring about the most effectual cooperation in the sale and distribution of their products?

The time is short. It is of the most imperative importance that everything possible be done, and done immediately, to make sure of large harvests.

Just What She Needed

When women complain of weariness, loss of strength and vitality, backache, pains in sides and hips, dull headaches, dizziness, floating specks and similar ailments, they too often accept these troubles as their lot because they are women, when the ailments may be the results of disordered kidneys. Mrs. Mary V. Bunker, Milton-on-the-Hudson, N. Y., writes: "I am now on my second bottle of Foley Kidney Pills. They seem to be just what I needed. Try them. Safford Drug Co. ad-16-5t

News Snapshots Of the Week The 500,000 men selected by lot from the best blood of the nation as represented by the millions registering on June 5 will be assembled in camps over the country for intensive instruction; the men now at officers' training camps will be given commissions in the new army; above is Teddy Roosevelt, Jr., at Plattsburg showing proper way to "charge bayonets." Advancing suddenly, the Italians captured 30,000 Austrians and neared Trieste, Austria's seaport on the Adriatic. James Eads How, the "millionaire hobo," was the only American to reach Stockholm for the Socialists' gathering. Tornadoes sweeping the south and middle west killed over two hundred and injured over a thousand. All sorts of campaigns were started to encourage buying of liberty bonds; in St. Paul, Minn., one took the form of a patriotic parade with many novel features.

A GENEROUS OFFER

Leo Godschmidt Buys Liberty Bonds for Gila Valley Milling Co.'s Employees

Leo Goldschmidt, president of the Gila Valley Milling Co., was a visitor in town last week, coming over from Tucson last Wednesday and remaining here until Sunday, when he returned to Tucson.

Mr. Goldschmidt is one of the successful business men of Arizona and since he acquired the mill plant here has succeeded in demonstrating that Arizona wheat can be made into the best flour of any place in the country.

In an interview with Mr. Goldschmidt he stated that the plans for the new mill have been received and accepted, and the power plant purchased, but owing to the present condition of affairs, caused by our entering the European war, from which there was no escape, he will be compelled to postpone the building of the new mill until later on.

Mr. Goldschmidt ranks as one of our most patriotic citizens and was one of the most energetic workers and advocates for the Liberty Bond Loan in his home city. While here, he secured the applications of three of his employees at the mill for $100.00 bonds, which he will purchase and present to the applicants, who will each pay $50, the balance being paid by Mr. Goldschmidt, certainly a very commendable and patriotic offer. In connection with the bonds purchased for employees, Mr. Goldschmidt has made up the difference, $750, which will be taken for the Gila Valley Milling Co., making $1,000 given for Liberty Bonds.

Mr. Goldschmidt was already a large subscriber to the Liberty Bonds before coming here.

BOOTLEGGER ESCAPES

John Owen, the companion of the late Frank S. Boyle, who was murdered by Manuel Acedo, near Klondyke, Saturday, February 24th, skipped out for pastures new Sunday night. Owen, who was convicted of the charge of bootlegging, it being alleged that he was a partner of Boyle's in the game, was serving out his jail sentence at the county jail, where he was given privileges as a trusty, failed to show up Sunday night and evidently hit the high places for freedom. It may be that Owen got suddenly patriotic, and when he is heard from again, it will be from some place in France.

J. T. Owens Buys the Hotel Olive

A. E. Jacobson has disposed of his hotel property, The Olive and the Olive Annex, formerly the Jones Hotel. The property was purchased by J. T. Owens, the deal going through Saturday.

Mr. Owens is one of the best business men in the Southwest, and will undoubtedly make a success in his new business of hotel proprietor. He has already started needed improvements at the Olive Annex, where he will paint and paper each room and put the hotel in first-class condition as an abiding place for travelers.

At the Olive, Mr. Owens is planning for extensive improvements, in the building and the grounds, and intends to make the Olive the most popular hostelry in the Southwest.

A. A. Anderson Is New Prison Warden

Governor Campbell has appointed A. A. Anderson, of Greenlee county, former sheriff of Graham county, superintendent of the State prison at Florence, to succeed R. B. Sims. The appointment was made Saturday, June 9th. The governor also appointed John B. Redmond, of Cochise county, secretary of the State prison.

Other appointments by the governor were: Dr. John R. Walls, of Pima county, superintendent of the State Insane Asylum, to succeed Dr. A. C. Kingsley, and Doane Merrill, of Cochife county, first member of the new State Commission on Public Institutions.

Meeting Tonight at the Methodist Church

A mass meeting will be held tonight at the Methodist Church at 8:00 o'clock. This meeting is called by the Safford Auxiliary of the Red Cross for the purpose of making preparations for Red Cross Week, which begins next Monday, June 18th, and continues until Monday, June 25th.

Every man and woman in Safford and vicinity is invited to attend this meeting. No subscriptions will be taken up.

"DAD'S" RESTAURANT

"Dad" Bowman, who recently purchased a rooming house in Globe, returned here Tuesday. "Dad" has rented one of the Freeman buildings on Second West street, where he will serve meals to his patrons for the present, and where his trained dog, "Darkey," may continue his stunts, "Dad" will put his lunch wagon in storage for the present and devote all his time to his new restaurant.

J. C. Robinson, of Los Angeles, Cal., was a visitor in town for several days last week.

Whooping Cough

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind, writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm." adv-16-5t

PERSHING IN FRANCE

American Commander Welcomed by Field Marshall Sir Douglas Haig

BRITISH HEADQUARTERS IN FRANCE, via London, June 15.—The news of the arrival of Major General John J. Pershing, the American commander in France, spread through the British armies today and was received with the utmost satisfaction. While Field Marshal Sir Douglas Haig was represented in the welcoming of the American army vanguard at the port of landing, more elaborate British honors await their visit to this section of the western front.

General Pershing will be a valued member of the allied war councils in the future and will have the opportunity to study and witness the various offensive actions before his divisions arrive.

On his journey to France General Pershing had the opportunity to see the efficiency of the British transport machinery in operation and was much impressed by it. Later he expects to go more thoroughly into the British system of handling supplies and men at the various bases, for the problems of the American forces with the overseas expedition will be largely similar to those which the British have so successfully solved.

CARD OF THANKS

We greatly appreciate and desire to give our most sincere thanks to our friends and neighbors, and especially to the people of Thatcher and other places in the valley, who so kindly helped us in the search for our dear little son, Howard, whose death has left us sorrowing, but abiding in the wisdom of Our Father.

LET US BUILD NOW

Don't Stop Building Construction Work While Fighting for Liberty

Americans have a habit of quitting work and crowding around when an accident occurs. The case in point is the world's "accident" in Europe.

We are in danger of losing our heads and stopping work while the conflict is on. This would be a serious happening; but, happily, every American can help to prevent it without adding to the noise and confusion of going to war.

While our naval and military forces are hastening to the front to destroy agencies and obstacles that seek to impede our growth, it is essential that we double our constructive efforts at home.

We can create and continue to build while we fight, and we ought to seize upon this advantage as the greatest opportunity created by the war.

Let both public and private useful building construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effort to supply the buiding industry with the cars needed to transport materials. Government, state, county and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone and other building material industries are basic. Neither government regulations nor railroad restrictions should be unnecessarily imposed to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the government in financing the war.

Let us build while we fight!

NEW MUSIC HOUSE

Prof. H. L. Payne has entered business life in town, coming here from Thatcher and opening up the only music house this side of El Paso, Texas. Professor Payne has leased one of the buildings in the Owens block, on the south side of Main street, and will carry a line of pianos, piano players, Victrolas and Victor records, all kinds of musical instruments and repair parts, and will make a specialty of the latest in sheet music.

RED CROSS WEEK, JUNE 18TH TO 25TH

Proclaimed by President Wilson for the Purpose of Patriotic Contributions

PROGRAM OF DAILY EVENTS

Will Be Carried Out by Safford Auxilliary to Raise Funds for Red Cross

YOUR PRESIDENT SAYS

WHITE HOUSE, May 10, 1917—"I have today created within the Red Cross a War Council to which will be entrusted the duty of responding to the extraordinary demands which the present war will make upon the services of the Red Cross, both in the field and in civilian relief, and I hereby earnestly call upon all those who can contribute either great sums or small to the alleviation of the suffering and distress which must inevitably arise out of this fight for humanity and democracy, to contribute to the Red Cross.

"Therefore, by virtue of my authority as President of the United States, and as President of the American Red Cross, I, Woodrow Wilson, do hereby proclaim the week beginning June 18, 1917, as Red Cross week, during which the people of the United States will be called upon to give generously and in a spirit of patriotic sacrifice for the support and maintenance of this work of national need.

"WOODROW WILSON."

Beginning next Monday, June 18th, the people of the United States will observe Red Cross Week, which will end Monday, June 25th.

During Red Cross week every effort will be made by patriotic men and women throughout the nation to raise funds by entertainments and personal solicitation for the Red Cross War Fund, which will be used to alleviate suffering and distress which is sure to be the result of the great war which our country is now engaged in to secure freedom for humanity.

"Now For Then," will be the inspiring call for every man and woman in our community to contribute as much as they can to the fund that will take care of our wounded and help the families of our soldiers who will be on the fighting lines in France. Never was there a more worthy or patriotic cause than that great war in which we are now involved and which must be successfully won for the democracy of the world and forever break the chains of autocracy.

In Safford, our citizens will be called upon to make Red Cross Week a glorious success. The Safford Auxiliary of the Red Cross has planned a week of benefit entertainments that should yield a handsome sum as the result of their patriotic work.

The program includes an event for each day of the week, beginning Monday, June 18th, and ending Monday, June 25th, and is given here, as follows:

Monday night, a benefit performance at the Safford Theatre, where a special picture program, provided by the V. L. S. E. Company, of New York, will be shown.

Tuesday will be membership day.

Wednesday night, an ice cream social will be given at Wickersham Park, beginning at 8:00 o'clock, which promises to be a grand affair and will undoubtedly be attended by people from all parts of the valley.

Thursday afternoon and evening, a Red Cross card party will be given at The Palms Cafe, the use of which has been donated to the Safford Auxiliary.

Friday will be "Red Cross Tag Day," when every person will be tagged by the patriotic committee of pretty women. This will be a very popular event. In the evening, a "Red Cross" dance will be given at Layton Hall.

Saturday afternoon, a bake sale will be conducted by the Safford Auxiliary at The Palms Cafe, when everything, that "Mother Cooks" will be placed on sale by the ladies and the proceeds go to the Red Cross War Fund.

CONTRIBUTE TO RED CROSS

[By John B. Miller. Mr. Miller was appointed by President Wilson to take charge of the American Red Cross War Fund in the territory west of the Mississippi.]

If you are a real American you must contribute to the War Fund of the Red Cross during the week of June 18th to 25th, whether you believe yourself able or not. If you are a real American it is not a question of giving from your surplus—you must give and keep on giving until you can give no more, and, even after that, you must keep on.

We are at war, but we do not realize what war is, and, if the Red Cross is able to do its full duty, we will never know what war can be.

Do you know what the Red Cross does? Some day, "Somewhere in France," when our soldiers are in the trenches, a line of American boys will leap over the top of their trenches, slip through the barbed wire, and, in face of high explosive shells, gas, liquid fire, shrapnel, grenades, machine gun and rifle fire, face the barbed wire in front of enemy trenches for the bare chance of meeting bayonet with bayonet, other boys no more to blame for this war than they are.

You know what the loss will be. You know that after Ypres the Princess Pats had only 127 men alive out of the 689 that saw the sun come up that day.

What of the fallen? If the Red Cross is ready, the Ambulance Corps of the fighting regiments will carry the wounded back through the communicating trenches to the dressing station. Here Red Cross surgeons, under the direct control of the United States Medical Department, will give first aid. The wounded will be turned over to Red Cross ambulances, and carried back to the Red Cross Field Hospital for immediate attention. From the Red Cross Field Hospital, Red Cross ambulances, Red Cross trains and in France, even Red Cross canal boats will carry the men back to the Red Cross base hospitals. If the wound is not fatal, a Red Cross convalescing station will take care of the soldier till he is ready to go back to the front. If the man is disabled a Red Cross steamer will bring him back to America, and the Red Cross receiving station here will care for him, send him home and on top of that look after his family after he is wounded, just as it will have looked after his family all the time he has been away.

Do you know what this means? In the old days before the Red Cross came, 600 soldiers died out of every 1,000 wounded. Today under proper conditions the percentage in not over 5 per cent.

If your boy was wounded every dollar you have in the world would go willingly to put him in Red Cross hands. Sixty thousand Los Angeles boys registered June 5th for the draft. How many of them will require Red Cross aid within the next two years?

The Red Cross is not a hit or miss organization, grabbing a dollar here and a dollar there and wasting the money. It is one of the five offensive and defensive arms of every civilized government on the face of the earth.

Every dollar that comes in is spent by the best business men in America for supplies and materials designated by the Medical Department of the United States Army—the department that has stamped out yellow fever as well as other great national scourges.

Ex-President Taft is the Chairman of the Red Cross. A partner in the house of Morgan is its financial chief. Its accounts are audited by the War Department. Its existence and operations are directed under special Acts of Congress, and President Wilson himself, by executive order, established the Executive Committee under which the Red Cross is now being managed.

The Red Cross is therefore a part of the fighting forces of the government and must be supported as such. This support will be easy enough to get—when that support is too late. Let the toll of one battle mount—as it often does—to 25,000 men or more! With the hospitals overcrowded and our own men dying for want of attention, the response to the Red Cross call will roll in fast enough—but then it will be too late.

Don't you be one of those to hold back until that time. Don't be a slacker. You inevitably will contribute. Why not now?

FOLLOWS ANCESTOR

Following in the footsteps of his illustrious ancestor, Francis Deuber, a direct descendant of Francis Scott Key, the author of "The Star Spangled Banner," is now serving his country in the arm of our national defense which will be "First To Fight"—the Marine Corps.

Private Deuber's mother is a great grand-daughter of the author of our national anthem, on the maternal side. Deuber's resemblance to his renowned ancestor is said to be so noticeable that many of those who have seen the original Francis Scott Key picture have commented upon the remarkable likeness.

Safford Public Library Opened

The Safford Public Library will be formally opened at 3:00 o'clock, Friday afternoon, June 15th, in the reading room at the court house.

At this time cards will be issued to those who apply for them. The rules for borrowing books will be the same as those generally followed in public libraries—that is, the borrower deposits $1.00 with the board, which will be returned on the return of his card. The rules for children are the same, with this addition: Should the child be unable to pay $1.00, he can enjoy the privileges of a borrower by getting the signatures of two responsible persons to his petition.

The library will be open every Wednesday and Saturday afternoons, from 3:00 to 5:00 o'clock.

The library board, of which Mrs. Ph. Freudenthal is chairman, has expended about $300.00 for books and supplies. This sum was earned by the Safford Woman's Club for this purpose. The library now owns about 350 volumes, among which will be found some of the best works turned out in this prolific age of good literature, as well as many of the old masterpieces.

The children have been well remembered and will be delighted with the long and varied list for their entertainment and enlightenment.

Of other reading matter, there is St. Nicholas, The Outlook, Review of Reviews and the Arizona Magazine, which come monthly. Also, two daily newspapers, The Tucson Star and the Phoenix Republican.

Come, inspect the many books offered for your perusal and get the habit of visiting the reading room.

Uncertain as to the Ending

Here's a belated Christmas story, but it's one of the sort that's good any time, and we don't believe it has got into print yet.

A Bratenahl youngster was writing a letter to Santa Claus. He had completed his list of requests, with infinite pains and many corrections, and had come to the closing sentence. Then he appealed to his mother.

"Mother," he said, "can you tell me about th' proper way to end up this letter?"

"Why, sign your name, dear, and give your address."

"Yes, I know. But shall I say, 'With lots of love, from Harold,' like I do to papa, or 'Amen,' like I do to God?"—Cleveland Plain Dealer.

Rid of a Lingering Cough

Cold weather persisted so late this year that many more persons have colds than ever before at this season. You can get relief from racking, hacking coughs, from wheezy, sneezy breathing, from raw, sore throat and tight chest. W. G. Fourth Class Postmaster Examination

The United States Civil Service Commission has announced an examination to be held at Safford, Arizona, July 14, 1917, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth-class postmaster at Thatcher, Arizona, and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was $936.00 for the last fiscal year.

Applicants must have reached their twenty-first birthday on the date of the examination, with the exception that in a state where women are declared by statute to be of full age for all purposes at eighteen years, women eighteen years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application blanks, Form 1753, and full information concerning the requirements of the examination can be secured from the postmaster at the place of vacancy, or from the United States Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington D. C., at the earliest practicable date.

Charles Boren Awarded Damages

The suit of Charles Boren vs. Arizona Eastern Railroad Company, for damages claimed for the loss of a mare, killed November 8, 1916, by a circus train, was tried in the Superior Court Monday, June 4th. The jury brought in a verdict in favor of Boren for $175.00.

In the case of Charles Boren vs. Arizona Eastern Railroad Company, for damages for the loss of a cow killed on the railroad, which was tried in the Justice of the Peace Court and judgment for $125.00 was given, and which was brought in the Superior Court Monday, June 4th, on appeal, by motion of counsel for company, the appeal was dismissed and the judgment for $125.00 was paid.

This Law Will Be Strictly Enforced

A bill was passed at the last session of the State Legislature making it an offense and imposing a fine of $25.00 for each offense for using a common drinking cup or roller or common towel in any public place, such as schools, clubs, barber shops, stores, etc.

This law has now gone into effect and will be strictly enforced by the County Health Officer.

Cholera Morbus

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Enfeart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief." adv-16-5t

Stockmen's Range Rights Reserved

ALBUQUERQUE, N. M., June 8—Stockmen holding grazing privileges on the National Forests, who enter the army or navy, may have their range rights reserved during their absence, according to an announcement made here today by District Forester Paul G. Redington.

The plan is authorized in a telegram just received from the Forester at Washington.

Stock owners, who desire to take advantage of this privilege, are asked to file a statement with the local Forest Supervisor, so that provisions can be made for the temporary use of the vacated ranges by others in the interim.

Under the Forest regulations, range privileges may be held only through use. The new ruling protects those who will be forced to discontinue use of the range through entering the national service, and at the same time guards against the vacated ranges lying idle.

He Took No Chances

Pat—Well, Mike, where have you been for the last two months?

Mike—I have been up in the country working on a farm.

Pat—Well, why did you quit?

Mike—Well, it was this way, the first week I was there a cow died, and they cooked her and we ate her; the next week a sheep died and we ate her; last week the old woman died and I quit.

Different--But Satisfactory

Indigestion causes worry, nervousness, sick headaches, biliousness, coated tongue, bad breath, bloating, gas, constipation, and constant distress. W. A. McRae, Raleigh, Ga., writes: "Foley Cathartic Tablets cleanse my system thoroughly and do not gripe or hurt at all. I recommend them to others and all find them entirely satisfactory and wonderfully different and more pleasant than anything ever seen." They cleanse the bowels, sweeten the stomach, invigorate the liver. Safford Drug Co.

NEVER FAIL BAKING POWDER

If you want to erect a barrier against fallen cakes or heavy biscuits, turn to Crescent Baking Powder. It's double acting. This means that instead of the usual one gas-liberating ingredient, it has two. If the leavening power generated by one isn't sufficient to thoroughly and completely raise a cake or a batch of biscuits, there is a second one. So success must attend its use always. Merely 25 cents stands between you and a pound of it.

Sour Stomach

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion. adv-16-5t

Dan Cupid Has Office Number

That marriage is contagious and that the entire plant of the Arizona Republican is infected, was again demonstrated Saturday, June 2d, when Carroll Spotswood Neese, for about one year a member of the news composing room force of this paper, and Mayme E. Brewer, daughter of Mr. and Mrs. E. H. Ponder, of 341 West Adams street, were married at the residence of Rev. George R. Varney, pastor of the First Baptist Church. The wedding was a quiet affair, only Mr. and Mrs. Platner and Troy Bradley, of The Republican business office, being present.

Shortly after coming to The Republican force, Mr. Neese became acquainted with the young woman who last evening became his bride. Their acquaintance ripened into love which culminated in their wedding. Both the young people have a host of friends in this city who extend congratulations and good wishes. —Arizona Republican.

Carroll Neese is the son of our fellow-townsman, W. C. Neese. He came here when a young boy and attended the Safford Public School. For several years he was a member of THE GUARDIAN force.

THE GUARDIAN joins with the friends of Mr. Neese in wishing him and his lovely bride a happy wedded life.

Stopped His Backache

My back ached all the time; my kidneys acted sluggish; dull headache; felt sleepy all the time; nervous; had to rise six to eight times each night. Folev Kidney Pills cured me." They strengthen the kidneys so they can filter out of the blood the uric acid and other poisons that cause rheumatic pains, backache, stiff joints and sore muscles. Safford Drug Co.

NOTICE OF CONTEST

DEPARTMENT OF THE INTERIOR
UNITED STATES LAND OFFICE,
Serial No. 022533-3901
PHOENIX, ARIZONA, May 28, 1917.

To P. T. Gannon, of Miami, Arizona, Contestee:

You are hereby notified that William O. Tyler, who gives Fort Thomas, Arizona, as his postoffice address, did, on March 3, 1917, file in this office his duly corroborated application to contest and secure the cancellation of your Desert Land Entry, No. 022533, made June 2, 1913, for SW ¼ SE ¼, Section 4; and W ½ NE ¼, NW ¼ SE ¼, Section 9, Township 5 S., Range 23 E., G. and S. R. Meridian, and as grounds for his contest he alleges that you have made no attempt to improve the land or to secure water with which to irrigate same, except the expenditure of approximately $50.00 in the digging of a well which was abandoned before being finished; that the land is not susceptible of irrigation from any known source of water supply; that you have wholly failed to comply with the desert land law.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the fourth publication of this notice, as shown below, your answer under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

AMENDMENTS

TO THE
ARTICLES OF INCORPORATION
OF THE
HUNDRED ELEVEN LAND AND CATTLE COMPANY

KNOW ALL MEN BY THESE PRESENTS: That, at a special meeting of the stockholders of the Hundred Eleven Land and Cattle Company, held at the office of the Company in the Town of Safford, State of Arizona, on the 27th day of April, 1917, after waiver of the statutory notice of the time, place, and purpose of the meeting by all the stockholders of the Company, by the affirmative vote of 100 shares of the issued and outstanding stock of the said Company, being all of the issued and outstanding stock of the said Company, Articles III and VII of the Articles of Incorporation of the Hundred Eleven Land and Cattle Company, were amended so as to read as follows:

Article III

The amount of the capital stock of this corporation shall be $150,000.00, divided into one hundred fifty shares of one thousand dollars each. It shall be paid at such times as the Board of Directors may designate in cash, real or personal property, services, leases, options to purchase or any other valuable right or thing for the uses and purposes of the corporation, and all shares of capital stock, when issued in exchange therefor shall thereupon and thereby become and be fully paid, the same as though paid for in cash at par, and shall be non-assessable forever, and in the absence of actual fraud the judgment of the Board of Directors as to the value of any property right, thing, or services rendered in exchange for capital stock shall be conclusive.

Article VII

The highest amount of indebtedness or liability, direct or contingent to which this corporation may be subject at any one time shall be $100,000.00, which amount does not exceed two-thirds of the amount of capital stock.

IN WITNESS WHEREOF, the said company has caused its certificate to be issued by its president and its corporate seal to be affixed and attested by its secretary this 27th day of April A. D. 1917.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's, the original and genuine. E 79

DO YOUR BIT FOR AMERICA

I call upon young men and old alike and upon the able-bodied boys of the land to accept and act upon this duty—to turn in hosts to the farms and make certain that no pains and no labor is lacking in this great matter.

I particularly appeal to the farmers of the South to plant abundant foodstuffs, as well as cotton. They can show their patriotism in no better or more convincing way than by resisting the great temptation of the present price of cotton and helping, helping upon a great scale, to feed the nation and the peoples everywhere who are fighting for their liberties and for our own. The variety of their crops will be the visible measure of their comprehension of their national duty.

The Government of the United States and the governments of the several States stand ready to cooperate. They will do everything possible to assist farmers in securing an adequate supply of seed, an adequate force of laborers when they are most needed, at harvest time, and the means of expediting shipments of fertilizers and farm machinery, as well as of the crops themselves when harvested.

The course of trade shall be as unhampered as it is possible to make it, and there shall be no unwarranted manipulation of the nation's food supply by those who handle it on its way to the consumer. This is our opportunity to demonstrate the efficiency of a great democracy, and we shall not fall short of it!

This let me say to the middlemen of every sort, whether they are handling our footstuffs or our raw materials of manufacture or the products of our mills and factories: The eyes of the country will be especially upon you. This is your opportunity for signal service, efficient and disinterested. The country expects you, as it expects all others, to forego unusual profits, to organize and expedite shipments of supplies of every kind, but especially of food, with an eye to the service you are rendering and in the spirit of those who enlist in the ranks, for their people, not for themselves. I shall confidently expect you to deserve and win the confidence of people of every sort and station.

To the men who run the railways of the country, whether they be managers or operative employees, let me say that the railways are the arteries of the nation's life, and that upon them rests the immense responsibility of seeing to it that those arteries suffer no obstruction of any kind, no inefficiency or slackened power.

To the merchant let me suggest the motto, "Small profits and quick service," and to the shipbuilder the thought that the life of the war depends upon him. The food and the war supplies must be carried across the seas, no matter how many ships are sent to the bottom. The places of those that go down must be supplied, and supplied at once.

To the miner let me say that he stands where the farmer does—the work of the world waits on him. If he slackens or fails, armies and statesmen are helpless. He also is enlisted in the great service army.

The manufacturer does not need to be told, I hope, that the nation looks to him to speed and perfect every process; and I want only to remind his employees that their service is absolutely indispensable and is counted on by every man who loves the country and its liberties.

Let me suggest, also, that every one who creates or cultivates a garden helps, and helps greatly, to solve the problem of the feeding of the nations; and that every housewife who practices strict economy puts herself in the ranks of those who serve the nation. This is the time for America to correct her unpardonable fault of wastefulness and extravagance.

Let every man and every woman assume the duty of careful, provident use and expenditure as a public duty, as a dictate of patriotism which no one can now expect ever to be excused or forgiven for ignoring.

In the hope that this statement of the needs of the nation and of the world in this hour of supreme crisis may stimulate those to whom it comes and remind all who need reminder of the solemn duties of a time such as the world has never seen before, I beg that all editors and publishers everywhere will give as prominent publication and as wide circulation as possible to this appeal.

I venture to suggest, also, to all advertising agencies that they would perhaps render a very substantial and timely service to the country if they would give it wide-spread repetition.

And I hope that clergymen will not think the theme of it an unworthy or inappropriate subject of comment and homily from their pulpits.

The supreme test of the nation has come. We must all speak, act, and serve together!

WOODROW WILSON,
The White House, April 15, 1917.

Don't Neglect the Summer Cold

We "catch cold" in warm weather because colds are germ diseases and our vitality is too low to resist them. To kill those cold germs, the antiseptic pine-tar of Dr. Bell's Pine-Tar-Honey is famously effective, besides helping to relieve the tight chest and invigorate the tissues. The honey and expectorant ingredients heal the throat and soothe the cough. Always have a bottle of Dr. Bell's Pine-Tar-Honey in your home, 25c. at your druggist. ad-no-2
